stay connected

Murrelektronik is a global leader in the development, manufacture and distribution of automation solutions. Our products can be divided into four core lines: Power Supplies and Control, Interfaces, Cables/Connectors and IO Systems.

Our high-quality, innovative products and focus on market requirements sets us apart from the crowd. Our customer-oriented approach ensures our tailored solutions make your applications better.

Electronics in the Cabinet

Murrelektronik's cabinet components ensure optimum power management in machine and system installations. The individual components are perfectly matched to each other.

Interfaces

Interfaces from the cabinet to the field are an essential part of many installation concepts. Murrelektronik offers a comprehensive product range for quick connections, easy separations and for connecting diagnostic equipment.

I/O Systems

Murrelektronik's I/O systems connect actuators and sensors of a system to the control. A huge variety of different models are available, from practical distributor solutions up to high performance fieldbus systems.

Connection Technology

Murrelektronik is a leading supplier of cordsets, with an almost infinite variety of cable types, colors and connector styles.
