

# List of BRANDS | PLANO

Born in 1932 in the USA, the Plano brand has become a synonym of quality, innovation and attention to detail for professionals around the world. **Plano was the first in the world to produce quality polypropylene tool holders.**

Based on this success, Plano Europe was created in 1992: a company in direct contact and in tune with the needs of the European market. Plano Europe soon positioned itself as the absolute avant-garde in the sector, both from the point of view of design, also thanks to the prestigious collaboration with FA Porsche, and in the search for new materials.
